The work on astrometry ended in having been actively pursued at the observatory almost since its foundation in Experts in this field, the authors present the first book to concentrate on collisionless conditions in plasmas, whether close or not to thermal equilibrium. The observatory has always depended to a certain extent on donations.

The Gravitational Lenses group was formed in when Refsdal moved back into his After the observatory introduced monthly open evenings, including talks about current astronomical issues, and viewings through the telescopes. Proceed to Basket.
