The majority of our knowledge of avian energetics is based on studies of birds from temperate and high latitudes. Sign Up. LeahBendell-Young. Science China Life Sciences. Smith, West Virginia University Choice. Sensitivity of Mangrove Ecosystem to Changing Climate. WarrenAllmon. Rather than documenting diversity or distribution, this collection traverses the patterns that the distributions and relationships across mammal species convey, bringing together for the first time geology, paleobiology, systematics, mammalogy, and biogeography. Further, the constraint space approach aims to decipher the functional constraints that correlate with parts of the trait-space in which particular types of species are under-represented or non-existent.
